About SkillSphere Education

Short term and long term educational programmes that focus on the development of 21st century skills, such as public speaking, general knowledge & awareness, leadership, critical thinking, collaboration, among a range of others.

SkillSphere conducts its initiatives under 3 main verticals – Model United Nations (MUNs), Quizzing and 21st Century Skill Development

Our homegrown 3D Model of Learning ensures a perfect blend of theoretical, practical and experiential learning. By making students perform activities, make mistakes and reflect on these learning curves, SkillSphere ensures integrated and sustainable learning through all its educational initiatives

Public speaking, general awareness & 21st century skill development in 7+ countries across Asia

Our Presence

200K+ students

Debate Workshops (*Grades 6 to 12*)

Public Speaking Events (*Grades 1 to 12*)

What Real Skills do MUNs Teach you?

Most individuals cannot speak about themselves for more than 18 seconds

As per a Harvard Research study, more than 93% adults were unable to think of 5 such things in 2019

Can you speak about yourself for 5 minutes?

Our Model UN Programmes to ensure that every student responds with a resounding 'Yes' to these questions

Mention any 5 major events that have taken place in the past week, and their impact on you

Glossophobia – the fear of public speaking, is the second most feared thing in the world

Can you express your opinion in large groups in case of disagreement?

MUNs and College Success

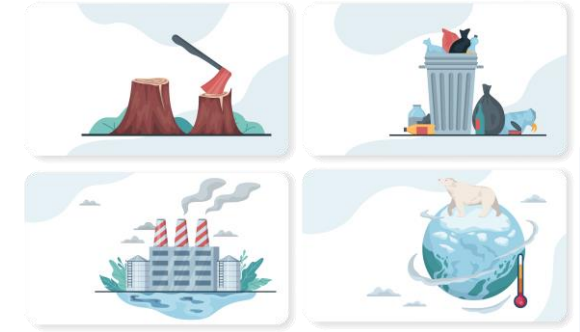

School and University students

2020–2021

Started **India's First Online MUN Series** – SkillSphere eMUNs. Have conducted over 40+ editions & assisted 60+ schools in organising their own MUNs

Events

Testimonials from Schools

It has been a pleasure knowing the SkillSphere Education team since we began our association in 2014. The team stands committed to ensuring that they offer a learning platform which is beyond the confinements of a classroom. What is truly interesting is the delivery of their programmes. The medium of instruction and the way they get the students to research, build capacities and explore is outstanding.

I genuinely feel that partnering with SkillSphere is one of the primary highlights of our school.

Dr Amrita Vohra – Principal
Elpro International School, Pune

SkillSphere Education comprises of an extremely talented, passionate, and dedicated set of individuals who truly see education as a noble field of work. They continue to improvise, innovate, and metamorphose their programmes to make them more enriching for their participants. I have seen the organisation grow progressively, and strongly recommend their programmes for all school & college students.

Mr Kulamani Mohanty – Executive Director
Kaanger Valley Academy, Raipur

Anansh and his SkillSphere Education team have time and again created and delivered meaningful sessions to develop core competencies in our learners, be it Indiation or MUN@Wadi.

Over the years, our learners have grown to become confident speakers & researchers. During the various sessions, students have had fun as well as learning to reach higher levels of conversational competence.

Kudos to this energetic band of educators for their sterling contribution in building core life skills in students

Ms Varsha Rana – Principal
The Galaxy Education Society – Wadi,
Rajkot
